The John B. Hickam Endowed Lectureship was established in 1981 to honor John B. Hickam, President of CSCR (now known as CSCTR) in 1970. At the time of his death in 1970, Dr. Hickam was Chair of Medicine at Indiana University School of Medicine. Dr. Hickam was internationally recognized in medical research, particularly in the areas of lung, heart and circulatory system diseases.

Dr. Hickam was also responsible for the administration of research programs, which established the Indiana University School of Medicine as one of the nation's primary centers for research in heart disease.

In 1981, several CSCR members contributed funds to the society in his name for a lectureship to be held each year at the annual meeting.

Clement J. McDonald, MD Regenstrief Institute for Health Care Indiana University *The Clinical Implications of the Human Genome Project*

<u>2001</u>

William N. Kelley, MD, MACP University of Pennsylvania School of Medicine *The Future of Biomedical Research: Trials and Tribulations*

<u>2002</u>

Tadataka Yamada, MD Chairman, U.S. Research & Development GlaxoSmithKline *The Importance of Bench-to-bedside Medicine*

<u>2003</u>

Canceled Annual fall meeting; moved to spring

<u>2004</u>

Richard P. Lifton, MD, PhD Sterling Professor and Chair of Genetics Yale University School of Medicine *Genes for the Heart, Kidney, and Bone Disease: New Insights from Human Genetic Studies*

<u>2005</u>

John D. Gearhart, PhD C. Michael Armstrong Professor of Medicine Institute for Cell Engineering Johns Hopkins University Differentiation of Human Pluripotent Stem Cells

<u>2006</u>

Charles L. Sawyers, MD Investigator, Howard Hughes Medical Institute Professor of Medicine, Molecular Pharmacology and Urology David Geffen School of Medicine at UCLA *Molecularly Based Targeting of the Cancer Genome*

<u>2007</u>

Edward J. Benz, Jr., MD President, Dana-Farber Cancer Institute Richard and Susan Smith Professor of Medicine Professor of Pediatrics and Professor of Pathology Harvard Medical School *Current Clinical Issues in Primary Care*

<u>2008</u>

William Tierney, MD Chancellor's Professor, Department of Medicine Indiana University School of Medicine *From the Forest Canopy to the Edge of the Water: What Can Medical Informatics Do for Clinical Medicine?*

<u>2009</u>

Stanley Hazen, MD PhD Section Head, Preventive Cardiology and Rehabilitation Cleveland Clinic *Myeloperoxidase, Dysfunctional HDl, and Atherogenesis*

<u>2010</u>

C. Ronald Kahn, MD Mary K. Iacocca Professor of Medicine Harvard Medical School *Tissue Insulin Resistance and the Origins of the Metabolic Syndrome*

<u>2011</u>

Joe G.N. Garcia, MD Vice President for Health Affairs, Vice Chancellor for Research, Earl M. Bane, Professor of Medicine, University of Illinois at Chicago *Personalized Medicine for Inner City Minorities: A Chicago Challenge*

<u>2012</u>

Arthur H. Rubenstein, MBBCh Professor of Medicine, Department of Medicine Endocrinology, Diabetes and Metabolism, University of Pennsylvania *Academic Leadership: The Legacy of John B. Hickam*

<u>2013</u>

Catherine DeAngelis, MD, MPH University Distinguished Service Professor, Emerita Professor of Pediatrics, Emerita, Johns Hopkins University School of Medicine; Professor of Health Policy and Management, School of Public Health; Editor in Chief Emerita, JAMA **Patient Care and Professionalism**

<u>2014</u>

Howard Jacob, PhD Professor, Physiology and Human and Molecular Genetics Medical College of Wisconsin *Leveraging Clinical Sequencing and Basic Science to Solve Clinical Cases*

<u>2015</u>

Gregory M. Vercellotti, MD, FACP Professor of Medicine University of Minnesota Sickle Cell Disease: New Insights in the Pathophysiology of Vaso-Occlusion

<u>2016</u>

David O. Meltzer, MD, PhD Fannie L. Pritzker Professor of Medicine, Economics and Public Policy Chief, Section of Hospital Medicine Director, Center for Health and the Social Sciences (CHeSS) Director, Urban Health Lab *Redesign of Care for Patients at Increased Risk of Hospitalization: The Comprehensive Care Physician Model*

<u>2017</u>

Thomas F. Gajewski, MD, PhD Professor of Medicine The University of Chicago Medicine *The Mechanistic Basis of Cancer Immunotherapies and the Application of Multidimensional Genomic and Bioinformatic Therapies*

<u>2018</u>

Jerry A. Krishnan, MD, PhD Professor of Medicine and Public Health University of Illinois at Chicago *Fitting Medicine into the Lives of People*

<u>2019</u>

Ariel Feldstein, MD Professor of Pediatrics Chief, Division of Pediatric Gastroenterology, Hepatology, and Nutrition University of California, San Diego *Cell Death and Sterile Inflammation in Liver Injury and Fibrosis*

<u>2020</u>

Annual Meeting Cancelled due to COVID-19 Pandemic

<u>2021</u>

Scott E. Parazynski, MD Physician and former NASA astronaut *Innovation in the Extreme*

<u>2022</u>

Nicole Lurie, MD, MSPH Strategic Advisor to the CEO of the Coalition for Epidemic Preparedness Initiatives and Former Assistant Secretary for Preparedness and Response at the U.S. Department of Health and Human Services *Vaccinating the world: How did we get here and where do we need to go?*

<u>2023</u>

Russell Glasgow, PhD Research Professor, Department of Family Medicine University of Colorado/Director, ACCORDS Dissemination and Implementation Science (D&I) Program *De-mystifying implementation science: A pragmatic guide*

<u>2024</u>

Nadia N. Hansel, MD, MPH Interim Director, Department of Medicine Johns Hopkins University, School of Medicine *Environmental contributions to health disparities in obstructive airway disease*
